Brunswick, GA is a city in need...

Over 44 percent of residents have income below the poverty level. Over-crowding in government housing is a big problem with over seven percent living in units with incomplete plumbing and kitchen facilities. With your help we can share in revitalizing areas of the city. Daily quiet time by the river, fun team building and exciting speakers each night at Epworth! Come grab a shovel, rake or paint brush and be a part of Mission Possible 2019 in the city!

Let's partner with The City of Brunswick and make a difference!
